

Back On Track

Joan Armatrading

Months turn into years
But I never felt the seasons change
I looked to the sun
I looked to the moon
I called on nature
Mother nature help me
Help me please

Shouts turned into tears
And it never felt like you were near
I opened my heart
I trusted you and
You said you loved me
Mother nature help me
Gotta find me a way

And I don't wanna fight
I don't want this to die
Every time I see you near
I wanna tell you that I

I
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track

Even brave men fear
But you never showed you were aware
You seemed unafraid
We might separate
And I just worry
That we won't get love back
Gotta find me a way

And I don't wanna fight
I don't want this to die
Everytime I see you near
I wanna tell you that

I
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track

Let the fire of passion burn
We were making love in the morning
Love in the evening
All night

I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track

I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
I wanna get us back on track
