Months turn into years But I never felt the seasons change I looked to the sun I looked to the moon I called on nature Mother nature help me Help me please Shouts turned into tears And it never felt like you were near I opened my heart I trusted you and You said you loved me Mother nature help me Gotta find me a way And I don't wanna fight I don't want this to die Every time I see you near I wanna tell you that I I wanna get us back on track Even brave men fear But you never showed you were aware You seemed unafraid We might separate And I just worry That we won't get love back Gotta find me a way And I don't wanna fight I don't want this to die Everytime I see you near I wanna tell you that I wanna get us back on track Let the fire of passion burn We were making love in the morning Love in the evening All night I wanna get us back on track I wanna get us back on track I wanna get us back on track

I wanna get us back on track

- I wanna get us back on track
- I wanna get us back on track
- I wanna get us back on track
- I wanna get us back on track
