

Fire And Ice

Joan Armatrading

I don't wanna know everything
About you
Can't love everything everything
That you do

No baby don't wanna find anybody else
Nobody could ever find another lover
Never find another lover like you
Like oil and water we don't mix
But something keeps us tied together

We fight
Fire and ice
Black is white
Night is day
That's how we treat each other

But I don't wanna go anywhere
Without you
I could never find
Loving as tempestuous

You say hot
I say cold
But oh when the fight is over
You say yes
I say yes
And we dive underneath the covers

And I don't wanna go anywhere
Without you
I don't wanna go anywhere
Without you
I don't wanna I don't wanna go anywhere
Without you

I say left
You say right
Before the night is over
I say yes
You say yes
And we dive underneath the covers

I don't wanna go anywhere
Without you
I don't wanna go anywhere
Without you
No baby don't wanna find anybody else
Never find another lover
Not another lover ever gonna make me happy
Like you make me happy
You make me happy
You make me happy
