

Heaven

Joan Armatrading

Came into my life
Made me think that I
Was really something
Took me by surprise
Someone with your charm
Looking my way

Am I in heaven
Am I in heaven
Am I in heaven
Have I gone up
Have I gone up
To the big cloud
Number nine

Hey you
Brought me out of my shell
I don't know why you care
But you do it well
Started a dream
Dreaming made me see
Oh babe
You're so right for me

And I wanna be the sunshine when you're down
And I wanna be the apple of your eye
And I wanna be the one you run to

Cause I found the perfect someone
Who can take me in their arms and love me
I found the perfect someone
Who could take me in their arms and love me

Started a dream
Dreaming made me see
Oh babe
You're so right for me

And I wanna be the sunshine when you're down
And I wanna be the apple of your eye
And I wanna be the one you run to
Day and night

Came into my life
Made me think that I
Was really something
Took me by surprise
Someone with your charm
Looking my way

Am I in heaven
Am I in heaven
Am I in heaven
Have I gone up
Have I gone up
Have I gone up
To the big cloud

Number nine

And I wanna be the sunshine when you're down
And I wanna be the apple of your eye
And I wanna be the one you run to
Day and night

I wanna be the sunshine when you're down
And I wanna be the apple of your eye
And I wanna be the one you run to
Day and night
