

# I Wanna Hold You

Joan Armatrading

You got the look I like, you make the people stare  
And it's getting me in a state  
You're going out with someone I don't approve of  
And it's getting me in a state

I see you in a restaurant, I wanna hold you  
I see you with your mother, I wanna hold you  
I see you when you don't see me, I wanna hold you

I wanna hold you in my arms and I wanna love you  
I wanna hold you in my arms and I wanna love you  
I want you and I'm gonna try, I want you and I'm gonna try

I'm searching but I don't know why I bother  
'Cause I've seen you and you look just right

I wanna hold you in my arms and I wanna love you  
I wanna hold you in my arms and I wanna love you  
I want you and I'm gonna try, I want you and I'm gonna try

Still searching but I don't know why I bother  
'Cause I've seen you and you look just right

I wanna hold you in my arms and I wanna love you  
I wanna hold you in my arms and I wanna love you  
I want you and I'm gonna try, I want you and I'm gonna try
