

Living For You

Joan Armatrading

If you could only see just what you mean to me
You would never ever pass me by
You would take my number and you'd call me up
You would never ever make me cry

'Cos you know that I'm living for you baby
You know that it's you, it's you or die
You know, that I'm living for you, baby
And I can't give in, give up on your love

If you could only see just what you do to me
You would never ever pass me by
You'd forget the others, I'd be your favorite lover
You would never want to leave my side

'Cos you know that I'm living for you, baby
You know that it's you, it's you or die
You know that I'm living for you, baby
And I can't give in, give up on your love

Your love has got me in a spin
I turn around and I begin again
Your love has got me in a spin
I turn around and I begin again

I just can't give in, give up on your love
You know that I'm living for you, baby
You know that it's you, it's you or die
You know that I'm living for you, baby

And I can't give in, give up on your love
If you could only see just what you do to me
You would never ever pass me by
Don't pass me by, don't pass me by
Don't pass me by, don't pass me by

You know that I'm living for you, baby
You know that it's you, it's you or die
You know that I'm living for you, baby
And I can't give in, give up on your love
