

## Lonely Lady

Joan Armatrading

Lonely lady dressed in blue  
Everything on love dreams comes true  
Lonely lady dressed in green  
From riches to rags  
Well, so it seems

Thank another guy  
He's never been round to see her  
She's a believer  
Yeah

Lonely lady specked in a car  
These times you wouldn't love at all  
Lonely lady, love's extreme  
From rags to riches  
Well, so it seems

Just try to run, someone say it can't be done  
She's a believer, she's a believer  
She's seen many dreams come true  
For him she's doing all that she can do  
She's a believer  
She's seen every curse come true  
For him she's doing all that she can do

Just try to run, someone say it can't be done  
She's a believer, she's a believer  
She's seen many dreams come true  
For him she's doing all that she can do  
She's a believer  
She's seen every curse come true  
For him she's doing all that she can do
