No Love For Free

Joan Armatrading

You come to me trembling trembling Shaking at the knees You say you love me better than Anyone else can My head is spinning I'm flattered But I don't understand

Every passing hello How are you You wanna know his name Just because I was there When you needed a shoulder You think I'll take your name I love for money I'm flattered But I can't leave my trade

You will see me holding up Some corner store In my twenties print And my thumb's turned up Yes I'm looking for a ride Jesus woke me up In some stranger's bed There are a lot like you They want to save my soul

Let me tell you This lady loves And she goes where she pleases No love for free
