

# Ocean

Joan Armatrading

I've got to keep on keeping on  
I just wanna be beside you  
Wanna do the best I can  
Even though you've made it plain  
You don't believe in love  
I can't let you go  
I can't walk away

Come on baby can't you see  
All the need in me  
Like the ocean speaks to the naked man  
The rhythm of your heart is like a sonnet  
Pure and sweet  
How you haunt my memory

Believe me baby  
In this brilliant world you're the best  
You're like a porcelain charm  
A perfumed smile  
A teenage blush  
You're like champagne roses

Come on baby can't you see  
All the need in me  
Like the ocean speaks to the naked man

I've got to keep on keeping on  
How can I live without you  
I've got to make you understand  
Each species has a mate  
And fate says you'll be mine  
I won't let you down

Come on baby can't you see  
All the need in me  
Like the ocean speaks to the naked man  
The rhythm of your heart is like a sonnet  
Pure and sweet  
How you haunt my memory

I believe in angels  
You leave me no alternative  
You're like a butterfly  
A gospel choir  
A sun kissed sky  
You're like sensual velvet

Believe me baby  
In this brilliant world you're the best  
You're like a porcelain charm  
A perfumed smile  
A teenage blush  
You're like sunshine roses

Come on baby can't you see  
All the need in me  
Like the ocean speaks to the naked man
