

Songs

Joan Armatrading

If I'm feeling down
If I'm ever low
I just think of you
And the songs

Filled with lots of meaning
With everything I need
Spiritually healing
Words that comfort

You told me that you cared
You'd be there for me whenever I need
When you're far away and I need you
The songs can bring you closer

If I'm ever down
If I'm feeling low
I just think of you
And the songs

The ones that make me wonder
Will it be that good again
They inspire me to try

You told me that you cared
You'd be there for me whenever I need
When you're far away and I need you
The songs can bring you closer

Songs that let the past
Flood into my mind
Take me to the place
That we left

It's such a strange sensation
To live that time again
Songs can save you
They can break you
Set you cryin'

You told me that you cared
You'd be there for me whenever I need
When you're far away and I need you
The songs can bring you closer

A long time ago
You told me that you cared
You'd be there for me whenever I need
When you're far away and I need you
The songs can bring you closer
