

The Way I Think Of You

Joan Armatrading

I wanna know why you chose me
Of all of the people in the world
Cos I never dreamt you were thinking of me baby
The way I think of you

Everybody tell me I'm deluded
That I've set myself up
I'm not crazy but I'm mixed up
And I wanna know

I wanna know why you chose me
Of all of the people in the world
Cos I never dreamt you were thinking of me baby
The way I think of you

I think of you like spring and summer
Not like winter
When the leaves turn brown
Everybody tell me I should wake up
But I'm over the moon

I'm begging you please no mind games
You told me you care is it true
Your love life was fraught
It was complicated baby
But now it's me and you

I wanna know why you chose me
Of all of the ladies you've loved
Why do we fall for your synchronized romancing
When it hurts so bad

Like the bitter taste of the juniper
Hides in colours that will make you smile
You hid yourself in the arms of strangers

But I wanna know
I wanna know why you chose me
Of all of the people in the world
Cos I never dreamt you were thinking of me baby
The way I think of you

I wanna know why you chose me
Of all of the people in the world
Cos I never dreamt you were thinking of me baby
The way I think of you
