

Together In Words And Music

Joan Armatrading

Baby, oh when I'm with you, yeah
A life is but a song
My soul concedes in a valley of song
And you are giving more than the day
Oh with you it's always now
Love and life in words and music

When you speak the word love
It's like echoes of love
Is real, I can feel what you say
Time will reveal the magic in words and music
Time can conceal the magic now

Now I know I am, now I know you are
We are in love together in words and music
Now I know I am, now I know you are
We are in love together in words and music

Baby, oh long was waiting for you
A love was but a word
When I spoke but I never can see
Till I took this road to you and the day
Oh with you it's always now
Love and life in words and music

Now I know I am, now I know you are
We are in love together in words and music
Now I know I am, now I know you are
We are in love together in words and music
