

# Turn Out The Light

Joan Armatrading

Up and down, and all around  
I've been looking for you  
In and out, and all about  
I've been reaching for you

I've got to tell you baby  
Now my mind is made up  
Things have looked bad but  
Now some years later we still

Turn out the light  
I'm gonna hold you so tight  
And when you wake up  
From some peaceful sleeping

Just another hear in our heart  
Get you dreaming  
Turn out the light  
I'm gonna love you tonight

Many lover have come and gone  
Some I miss and some I don't  
Some were handsome  
But none were plain  
My good fortune I suppose

I never tell you baby  
Since I took up with you  
I mostly think of love and  
That means you

Let's turn out the light  
I wanna hold you so tight  
And when you wake up  
From some peaceful sleeping

Just another hear in our heart  
Will get you dreaming  
Turn out the light  
I'm gonna love you tonight

Just another hear in our heart  
Get you dreaming  
Turn out the light  
I'm gonna love you tonight
