

Willow

Joan Armatrading

May not be you're best
You know good ones don't come by the score
You've got something missing
I'll help you look you can be sure
And if you want to be alone, or someone to share a laugh
Whatever you want me to all you've gotta do is ask

Thunder don't go under the sheets
Lightning under the tree
In the rain and snow
I'll be your fire side
Come running to me
When things get out of hand
Running to me
When it's more than you can stand

I said I'm strong
Straight
Willing to be a
Shelter in a storm
Your willow
Oh willow
When the sun is out

A fight with the best girl
Prettiest thing you ever saw
You know I'll listen
Try to get a message to her
And if it's money you want, or trouble halved
Whatever you want to do all you've gotta do is ask

I said I'm strong
Straight
Willing to be a
Shelter in a storm
Your wil - low
Oh wil - low
When the sun is out
Shelter in a storm
Your wil - low
Oh wil - low
When the sun is out
