Show Me The Life

Joan as Police Woman

I believe you And I love you Tell me I will be In your eyes and On your lips only Tell me I won't forget

Sell me on permanence I'd never thought of it Show me daddy Show me the life And I'll go there

Strip me I'm already threadbare Enough to see The mark of blueprint In my makeup Mapping the ghost in me

Sell me on permanence I'd never thought of it Show me daddy Show me the life And I'll go there Show me the life And I'll go there Show me the life And I'll meet you there
