

I'm With You

Joan Baez

So it's time to set you free
Watch you sail away from me
Though I'll miss you, when you do
I'm with you

Turn your face into the wind
Let your greatest dreams begin
Take the high road, win or lose
I'm with you

I was there in the morning light
With a love that would last
And I'll be there on your darkest night
When the sun's long gone and your heart is sinking fast

When you stumble, when you fall
When they back you to the wall
After all the rest are through
I'm with you

So it's time to set you free
Watch you sail away from me
Though I'll miss you when you do
I'm with you

Take the high road, win or lose
I'm with you
