Different

take a peek

Cause you're different

When you're different

Just walk your walk

There's something different

Live your life outside the box Blow off all the empty talk

They focus on the things you're not

Age is not in years, it sits between your ears You see it different It's fun to break the mold and see it take ahold And now you're different, too... Yeah when you're walking down the block, the traffic starts and stops Cause you ooze difference Look, they treat you rough, but you're tough enough and we're all different, YEAH !! DI Know What I Know

Have you ever taken flack from the bullies on attack

People gonna stare, you unsettle them and scare 'em

Just cause you're different (show 'em Dougie)

Walking down the street when you pass they

They laugh and call you names but that ain't no badge of shame

I watch your conversation flow, the in's and out's In the end it goes to show that, I'm right to doubt (cuz)

I know, I know, I know, I know what I know

You tell me things don't work that way, that I'm so wrong The narcissistic things you say, they don't belong I know, I know, I know, I know what I know

Now I see your tricks, that you can't fix you're in denial

Intuition is my guide, you've got no hope And now you swear you never lie, like I'm some dope
