

## Drinking Song

Joan Jett

I tend to drink too much sometimes  
I fall a little drunk on my face  
I get up I brush up I head to the bar  
For another round with all of my friends

Here's to 'em To all of my friends  
Here's to 'em To all of my friends yeah  
Here's to 'em To all of my friends  
Here's to the bastards, the best of my friends

Step up to the bar we tip the bartender first  
Keep 'em filled to the rim  
There might be a bit of a brawl that breaks out  
But we always leave when we should

Here's to 'em To all of my friends  
Here's to 'em To all of my friends yeah  
Here's to 'em To all of my friends  
God love 'em my fuckin' friends

So with this pint I toast to you to all of my friends  
Keep healthy and good I clench it tight and  
I raise it high May the spirits runneth over  
And drinks never be denied

I know work is the worst part of the day  
But when you get out the fun will pay  
So now drink with me to no end  
'Cause here we are with the best of our friends

I tend to drink too much sometimes  
I fall a little drunk on my face  
I get up I brush up I head to the bar  
For another round with all of my friends

Here's to 'em To all of my friends  
Here's to 'em To all of my friends yeah  
Here's to 'em To all of my friends  
It's all I got in the end are my friends
