

I Got No Answers

Joan Jett

Little boy asked me why people get mad
I just told him they were probably sad
Is that true
I just don't know
I got no answers

So the little boy asked me why the people are sad
They're just survivin' they don't know what they have
Is that true
We come and go
I got no answers

When I'm down feeling lonely and confused
I just hide it all that's the only thing to do

A little girl asked me why the sky is so grey
It wants to rain on this cloudy day
Is that true
And what will it wash way

I got no answers
I got no answers
I got no answers
