

# Make It Back

Joan Jett

There's lightning in the sky  
And the houses are on fire  
The sun is getting cold  
And the river's getting higher

So I keep moving on  
I'm watching where I'm driving  
I'm staying mind on course  
And taking all the ...

I hope this train don't fall off the track  
Cause I gotta make it back  
I hope this train don't fall off the track  
Cause I, I gotta make it back

So much is in my pack  
And the preachers ... for me  
Yesterday has passed  
I'm ready to my memory

So what else can I say  
You deal with what you're giving  
And I'm fighting everyday  
On ... when I'm living

And I hope this train don't fall off the track  
Cause I, I gotta make it back  
I hope this train don't fall off the track  
Cause I, I gotta make it back

I'm on my way  
God go win at my back  
Rolling down the track

Now I tell myself baby, have no fear  
Cause change is what you're make it  
And the home is getting near  
So close that I can taste it

I know this train won't fall off the track  
Cause I, I'm gonna make it back  
I know this train won't fall off the track  
Cause I, I'm gonna make it back
