You know when you're close you really turn me on That's why I want you so bad when your gone, yeah Come on, come on and take me home
Please stay with me and don't you leave me alone

You drive me wild Yeah yeah You know you do Uh huh You drive me wild You know I need you

You're on my mind always my one desire Lets get together and build us a fire Make me tremble make me shake Pleasin' each other rockin' till daybreak

You drive me wild Yeah yeah You know you do Uh huh You drive me wild You know I need you

Don't hold off do it, I need your lovin'
I'm getting so hot I'm cooking like an oven
My head is all filled with crazy thoughts
Love like this just can't be bought

You drive me wild Yeah yeah You know you do Uh huh You drive me wild You know I need you
