You Want In, I Want Out

Can't stop the fun from raging Oh 'cause we're in too deep Can't take a whip and tame it Oh is the price too steep

I want to make you happy Won't give myself away Want me to fake it baby It's just a game we play

You want in, I want out That's what love is all about Full of hope and full of doubt You want in and baby I want out You want in and I want out

I've got a heart in danger Oh 'cause I'm stuck on you I wish we could start again as strangers Oh don't know what to do Don't want to start no trouble Don't want to go away Wait too long and the pain is double They were the ones that paid

You want in, I want out That's what love is all about Full of hope and full of doubt You want in and baby I want out You want in and I want out

Why do you do it to me

I want to make you happy Won't give myself away Want me to fake it baby It's just a game we play

You want in, I want out That's what love is all about Full of hope and full of doubt You want in and baby I want out You want in and I want out
