

## Baby Is a Butterfly

Joan Osborne

There's a mansion on the moon  
Honey we will be there soon  
Into ships our dreams are tossed  
Hold my hand and let's get lost

Baby Is a Butterfly  
Silken wings and eagle eye  
Watch her running up the sky  
Oh Baby...is a butterfly

Rivers never stop to rest  
Sparrows know that they are blessed  
(going forth into the night  
Beckoned by the city lights)

Baby Is a Butterfly  
See her swimming in the sky  
Hurts me so to hear her cry  
Oh baby...is a butterfly

Staying all day at the fair  
Evening primrose in her hair  
Everything's a miracle  
Now my cup is always full

Baby Is a Butterfly  
Silken skin and eagle eye  
We'll be angels by and by  
Baby...is a butterfly

Stars are hiding in the clouds  
Branches gonna catch them now
