

Lucky Star

Joana Zimmer

can't you see you are the one
I'm always thinkin of
in my dreams you are already mine
if you show me love I promise
I'll be there for sure
I would stay forever by your side
look at me now
can you see all the love in my eyes
will you give it a try

will you be my lucky star?
be the one to show me who you are
will you guide me through the nights
be my ever shining light
will you be my lucky star?
be the one to show me who you are
'cause I know this could be
love shinin' on my heart

what if I would tell exactly
how I feel for you
would you run or
would you let me down
look at me now
will you give this love a try
I got nothing to hide

will you be my lucky star?
be the one to show me who you are
will you guide me through the nights
be my ever shining light
will you be my lucky star?
be the one to show me who you are
'cause I know this could be
love shinin' on my heart

Look at me now
can you see all the love in my eyes
will you give it a try

will you be my lucky star?
be the one to show me where you are
will you guide me through the nights
be my ever shining light
will you be my lucky star?
be the one to show me who you are
'cause I know this could be
love shinin' on my heart
