

# What You Give Is What You Get

Joana Zimmer

We got a Little freaky due to physical lust. U got me  
where u wanted regardless of my distrust. U got me  
talking all sweet sweet. Got me feeling like a love  
song. Fading now fading now fading now

I gave a little lovin boy but u never gave back.  
Andbaby now I'm leaving u already got my things packed.  
I got your message on the cell phone. She said she  
likes it when you're downtown you've played around  
played played around

It's alright, gotta move on. It's over now

What you give is what you get: We met an the time we've  
been together. Giveb bozhering yet I Regret that I  
opened up: My heart an let U in what u sin. That I  
didn't wanna see U gotta let me go should've know that  
baby what u give is what U get

I got U on the creep creep. Still U wanna new chance:  
But it's a little late now we've already had the last  
dance. SO don't U ever call me. Don't U play another  
love song. I'll be gone I'll be gone I'll be gone

It's alright, gotta move on. It's over now

Take a good look at your life. Do U know the true  
meaning of love. Unhappines & loneliness is what you're  
heading for coz baby what u give is what u get
