

When We Dance

Joana Zimmer

When we dance
we're like the moon and the sun
moving together as one
just you and I
when we dance
it's like we're walking on air
love is a secret we share
in the heat of the night

take me, turn me, hold me, forever
tell me, we'll be like this together, forever more

I can feel my senses come alive
I can see the fire in your eyes
I get so excited when we dance
I love, I love it when we dance
All of my emotions lose control
I am not afraid of letting go
Baby, I'm in heaven when we dance
I love, I love it,
'cause everything is perfect
when we dance...

when we dance
out here under the stars
I know I'm safe in your arms
you're all I need
when we dance
even our shadows embrace
there is no time, no space
when you're with me

take me, turn me, hold me, forever
tell me, we'll be like this together, forever more

I can feel my senses come alive
I can see the fire in your eyes
I get so excited when we dance
I love, I love it when we dance
All of my emotions lose control
I am not afraid of letting go
Baby, I'm in heaven when we dance
I love, I love it,
'cause everything is perfect
when we dance...

take me, turn me, hold me, forever
tell me, we'll be like this together, forever more

I can feel my senses come alive
I can see the fire in your eyes
I get so excited when we dance
I love, I love it when we dance
All of my emotions lose control
I am not afraid of letting go
Baby, I'm in heaven when we dance
I love, I love it,

'cause everything is perfect
