

Movie Queen

Jobriath

I've always wanted a movie queen
To call my very own
That bright and shining star
I've worshiped from afar
Came to earth to be with me tonight

I've always wanted a superstar
To cherish as my own
But so high in the sky
I never dared to try
To take the steps that I can take with you tonight

With you at my side Ginger Rogers up and cried
Busby Berkley ate his heart out over you
With you on my arm Betty Grable lost her charm
And Florin Ziegfeld follies looked like Brooklyn Zoo

I've always wanted a movie queen
To call my very own
And here I am
So starry eyed with you tonight
