

Space Clown

Jobriath

You're so entertaining and amusing
And God knows everybody loves a clown
Boredom wails you can't refuse him
O Pierrot where do you go when you come down
A star shot across the sky and smiled
Then vanished in a tear

Ah you're a space clown
When you laugh you bring the house down
When you smile you bring the walls down
You're a space clown
'Cause when you cry
When you cry you bring the sky down
