

Don't Rush

Jodeci

The look within your eyes, baby
It makes me wonder why, lady
You wanna get with me, darlin
When I thought we were just friends
Then you made your move on me
You started movin on me strongly
Even though nobody was around
Still had to tell you to slow it down

We don't have to rush the night away
There's always gonna be another day
A time to make love and a time to play
What I'm tryin to say
Take love slowly

When I took you to my house
Baby you got buck wild
And kicked off your shoes
Then you started dancin
I said come over here, have a little seat with me
All I wanna do is watch a little bit of tv
She started rubbin on my legs
Fingers in my hair
Then you got silly
Said lets play truth or dare
I'm not in the mood
Honey I swear
Babe you're outta control
Had to get up out of there

We don't have to rush the night away
There's always gonnna be another day
A time to make love and a time to play
What I'm tryin to say
Take love slowly

Don't rush it
Don't rush (don't)
Don't rush it
Don't rush it baby
