

Oh girl i see you  
The time is so right  
Let's plan a day  
Let's go out at night  
Let's make this special  
Remember our fun  
Go through the storms  
And look back on

The times we shared together  
Make it last forever  
The times we shared together  
Make it last forever

Can't forget the night  
We watched for the sun  
We laughed and played  
Then morning comes  
Just like the day we started our heart  
It was sunrise when we made our first love  
The times

The times we shared together  
Let's make it last forever  
Just like the morning sun  
We laughed and played now til morning come  
I like the way you kiss me  
Holding me girl when we do this  
It keeps me rising high  
All our love will never die  
Nothing could compare to the love we share  
Say nothing not a thing girl  
Could compare to the love we share together  
Oh girl i see you  
I wanna do you tonight
