

Happier Times

Joe Bonamassa

The shape that I'm in
Never let her down a day in my life
Tree's all around me
As I see the time pass me by

Never trade you for the world
Never do the things I used to
I guess it's not good enough
This I see

But I'll remember happier times

Life it hits me
Comes faster now day by day
Places that I've been
Are not the place I wanna be

Never trade you for the world
Never do the things I used to
I guess it's not good enough
This I see

And I'll remember happier times

Friday comes and goes
I guess I won't talk to you anymore
So many things unsaid
So many things I wanna say

Never trade you for the world
Never do the things I used to
I guess it's not good enough
This I see

But I'll remember happier times
And Now remember happier times
