

## Sick in Love

Joe Bonamassa

I should be medicated, I'm debilitated  
There's nothing I can do  
Put me where they find 'em, deep in some asylum  
Let me forget about you  
I'm absolutely, positively, sick in love with you  
Here's the situation, I need an operation

Bring me a doctor and a nurse  
Give me anesthetic, isn't this pathetic?  
They are telling me it could be worse  
I'm absolutely, positively, sick in love with you  
I'm absolutely, positively, sick in love with you, sick in love

All my friends said to leave her  
It's too late, I got the fever  
My brother said, "Forget her now"  
But they never met her  
And after all this time, this ain't getting better

Now I can't hack it, I need a straitjacket  
I love you and I can't stop, I need a pill now  
I'm truly, truly ill now, any second I will drop  
I'm absolutely, positively, sick in love with you  
I'm absolutely, positively, sick in love with you, I'm sick in  
love

I'm absolutely, positively, sick in love with you  
Oh, I'm sick in love, baby, oh no, oh, I can't stop, baby
