

Getting Away

Joe Brooks

We've been sitting around a lil bit too long,
I've seen, I've seen you more alive,
Seems like we've stopped,
Keep on watching the world, spinning without us.

Get up, grab your smile cos today's gonna go our way,
This luck, I know it's gonna change,
So lets get lost,
Waiting for the world to spin us around.

And the days go on and on and on,
We gotta get out while we're still young.

Said we're getting away,
We're getting away.

The sun is shining in my face,
It's blinding all my fears away,
The wind sits high in your hair,
Living life without a care.

And the days go on and on and on,
We gotta get out while we're still young.

Said we're getting away,
We're getting away
