

# Time Machine

Joe Brooks

She left me in japan  
I left her in madrid  
she never said the things she said  
I never did the things I did

sometimes things don't go as planned  
sometimes things don't go as planned

but I got my time machine  
I can just turn back everything  
I always know what might've been  
cause I just rewind, rewind  
the whole wide universe  
is rehearsing just for me  
I can change anything  
I got my time machine

you never said a word  
but I heard everything you said  
and all the silence that we wore  
is still running through my head

sometimes things don't go as planned  
sometimes things don't go as planned

but I got my time machine  
I can just turn back everything  
I always know what might've been  
cause I just rewind, rewind  
the whole wide universe  
is rehearsing just for me  
I can change anything  
I got my time machine

be here now  
be here now

I can change anything....
