

She Don't Put It Down

Joe Budden

Ugh, shorty old news though

Baby light the world
I dont even waste a madem on it
clean up amazing I appreciate the fashion on em
badder than a mother fucker
aint too many passin on her
only right I pick her up
they way she got a wagon on her
when Im on that throw dont get the bops when I'm in town
not unless its for the three some if its poppin should be down
know these other joker be starin but stop when I'm around
first to get inside them jeans she be hoppin up and down
let the world know that she rider think eventually will break up
and I love it when we argue cause eventually we make up
I mean, We fight and fuck
we fuck and fight
we fuck some more
aint fuckin ass shake
great taste, great bodies softer than cashmere
any time she .. she knows she can crash here
them other broads is other broads
all of them is last year
yank it man I'm just datin chance here word

She don't put it down like you (down down like you)
(she dont, she dont)
She don't put it down like you (down down like you)
(she dont, she dont)
She don't put it down like you (down down like you)
(she dont, she dont)
She don't put it down like you (down down like you)
(she dont, she dont)

Never trippin off the past
I would rather never mind em
cause only fools trip over somethin that be behind em
and yesterday is history
tomorrows a mystery
she here at the present time
it feel like a gift when she put it down down
all the way down you could get down but cam you stay down?
shout out to the ladies with your down asses
that keep a tight circle with them round asses
at the crib its just Us nigga
fuck me so good make me not trust niggas
thats my shit
I'm over protected
you want that good shit you know where your connect live
told me ex dont be bitter be better
I re-place her before I re-gret her
textin now and then question is how I been?
the hook sound like a message I would shit

Twista, A diamond girl

I remember when I used to bag up in the bassment with her
with the attraction never Michael Jackson swag
but in this case a thriller
and she was a wolf now that she's clothin
but a grey chinchilla
even though I found another assassin
can never be your replacement killer
when I got up in the goods it feel kinda good to me
but I know she dont put it down like you
cut from the bottom when you up when you rock on top
cause aint nobody around like you
pullin up to me and I'm all up fully
when Im pulling a palm full of hair
finna lay you back in another position giving it to you good with your Louie
Viutton in the air
got a bad new bitch
but she dont be tripping dont cross with them flows
but she dont be doin the way you be doin when you be hooked to them walls
I'm bumpin some pack ... and fuckin her good
but they never gon flow
steady cutting with bitches all on me
cause I'm with Joe Budden the one oh one
put you in the category of somebody that give it to me good but little nerve
s
individual never particular but Ill never be with her so kick her to the cur
b
I got a new women though I be buildin her up to be better than you
she fine but dont know how to throw it back
so she can never be you

I'da put another in your space,
damn if they do
It's been hard to replace
I just want the same judge sittin' on the case
She gon' hate but she know
