

# Get On

Joe Cocker

Hey

Well, you've been wearing your burden like a two ton chain  
Take it off, throw it down  
Send that petty party packing on the midnight train  
Get it gone, ship it out

Call him all curvy, skinny, don't matter ugly, pretty  
Let's talk it down and dirty

If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on

Don't let it slip away, it's all about today  
Hear all the people say, get on, baby, get on

We got that boom, boom, bumping like a downtown quake  
Wake it up, shake it down  
We got the girls, all jumping at the Tucson Lake  
Feel the love moving 'round

The party's getting hotter, we got the fire, water  
Turn up some Joe Cocker

If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on

Don't let it slip away, it's all about today  
Hear all the people say, oh, get on, baby, get on

Get on, get on  
Get on, get on, get on, get on, help me, ladies  
Get on, get on, get on, get on, turn it up  
Get on, get on, get on, get on, turn it up  
Get on, get on, get on, get on all day

If you wanna catch a ride through a good time  
This is a song, get on  
And if you wanna have a party, we can start it right  
What you waiting on, get on

Don't let it slip away, it's all about today  
Hear all the people say right now

We'll get you feeling right, just rock it and we'll talk  
We'll rock it all night  
Oh, get on, baby, get on, life, get on  
Don't let the meek get on, that was get on
