Неу

Well, you've been wearing your burden like a two ton chain Take it off, throw it down Send that petty party packing on the midnight train Get it gone, ship it out

Call him all curvy, skinny, don't matter ugly, pretty Let's talk it down and dirty

If you wanna catch a ride through a good time This is a song, get on And if you wanna have a party, we can start it right What you waiting on, get on

Don't let it slip away, it's all about today Hear all the people say, get on, baby, get on

We got that boom, boom, bumping like a downtown quake Wake it up, shake it down
We got the girls, all jumping at the Tucson Lake
Feel the love moving 'round

The party's getting hotter, we got the fire, water Turn up some Joe Cocker

If you wanna catch a ride through a good time This is a song, get on And if you wanna have a party, we can start it right What you waiting on, get on

Don't let it slip away, it's all about today Hear all the people say, oh, get on, baby, get on

Get on, get on
Get on, get on, get on, get on, help me, ladies
Get on, get on, get on, get on, turn it up
Get on, get on, get on, get on, turn it up
Get on, get on, get on, get on all day

If you wanna catch a ride through a good time
This is a song, get on
And if you wanna have a party, we can start it right
What you waiting on, get on

Don't let it slip away, it's all about today Hear all the people say right now

We'll get you feeling right, just rock it and we'll talk We'll rock it all night
Oh, get on, baby, get on, life, get on
Don't let the meek get on, that was get on
