

I'm So Glad I'm Standing Here Today

Joe Cocker

I'm so glad I'm standing here today
There were times
I remember
Had to fight just to hold my head up
Those times when even my friends
tried to make a fool of me
there were things that my heart attacked
that they just couldn't see

Some said I was hopeless
..... tangled in the night
Strong hearts just keep goin
That is why I'm still standing here today

Come together
raise up your voices
This time my song of love and life won't go away
Ill sing forever
here in the sunshine
I've lived to see the sun break through the storm
And I'm so glad I'm standing here today.

If your lost in your troubles
And the world just seems to forget you
If you remember sunshine
even on your darkest day
Just follow what your heart says
And you will find the way

Some said I was hopeless
..... tangled in the night
Strong hearts just keep goin
That is why I'm still standing here today

Come together
raise up your voices
This time my song of love and life won't go away
Ill sing forever
here in the sunshine
I've lived to see the sun break through the storm
And I'm so glad I'm standing here today.
