

# Stay The Same

Joe Cocker

This life is upside down  
We're trying to figure it all out  
We're so close but feel so far  
Wish you we weren't quite who we are  
And they say

Some other love, some other face  
Some other time some other place  
Some other path, some other way  
Maybe be the more we try to change  
Maybe the more we stay the same  
We stay the same

Our hearts are wild and free  
We're trying to find the love we created  
But deep inside  
We rearrange  
Trying to feel that lonely space  
And we say

Some other love, some other face  
Some other time some other place  
Some other path, some other way  
Maybe be the more we try to change  
Maybe the more we stay the same

I think we see what we want to see  
I think we need what we really need  
Maybe we are just who we are  
We are...

Maybe be the more we try to change  
Maybe the more we stay the same

maybe ...
