

# You Can't Have My Heart

Joe Cocker

You can keep that diamond ring  
Take it down town and find out what it will  
You can ask me to give you almost anything  
All except my heart

You can't have my heart  
I'm takin that with me  
Somebody else might want it  
You broke it almost constantly  
So you can't have my heart

I will not be true to you  
I wont wait till you decide what you're gonna do  
You may change your mind, but it's too late this time  
Give me back my heart

You can't have my heart  
I'm takin that with me  
Somebody else might want it  
You broke it way too frequently  
Now you can't have my heart

I'm takin that with me  
Somebody else might want it  
You broke it almost constatly  
So you can't have my heart

I don't care any more  
Why you act the way you do  
I won't be there anymore  
I won't even be thinking about it  
I'll take the future  
You can have the rest  
All except my heart

You can't have my heart  
I'll take that with me  
You really didn't want it  
You broke it almost constantly  
Now you can't have my heart  
I'll take that with me  
Somebody else might want it  
You broke it almost constantly  
So you can't have my heart
