

## If I Lost Her

Joe Diffie

Darlin', as I look at you  
It reminds me of how much in love I am  
Oh, I'm a lucky man

It won't mean love that's in your eyes  
Only makes me realize where I should be  
And it's time to leave

'Cause you've made me think of her  
And what our love was worth, she's all I'll ever need  
And I appreciate the drink and thank you for the dance  
And the chance to see, if I lost her, I couldn't live with me

I can't remember what it was  
That made me say those hurtin' words tonight  
What a silly fight

So at the risk of being rude  
I'll say goodbye and promise you  
I won't forget what you just did

'Cause you've made me think of her  
And what our love was worth, she's all I'll ever need  
And I appreciate the drink and thank you for the dance  
And the chance to see, if I lost her, I couldn't live with me

And I appreciate the drink and thank you for the dance  
And the chance to see, if I lost her, I couldn't live with me
