

What A Way To Go

Joe Diffie

Everybody said you'd break my heart
Well, they're right, your love's killing me
Dying feels so good so far
I won't fight, I'll go willingly

But what a way to go, girl
If I should die in your arms tonight
What a way to leave this world behind

I'll give my heart and soul 'til there's nothing left
I'll lie right here and let you love me to death, so slow
What a way to go, what a way to go

I can feel the flame of love so strong
Blazing high, burning in your eyes
There's no turning back, I'm too far gone
I can't stop, Heaven waits tonight

But what a way to go, girl
If I should die in your arms tonight
What a way to leave this world behind

I'll give my heart and soul 'til there's nothing left
I'll lie right here and let you love me to death, so slow
What a way to go, I'd give my heart and soul
What a way to go
