

I Saw It In You

Joe Ely

I opened the blinds in a Texas Motel room
When the sun blasted in, I saw it in you
I been a rollin' and a ramblin' all over creation
Rollin' down the highway lookin' for the truth

I saw it in you
I saw it in you

I woke up my sidekick, "It's a long way to LLano
I'll see you next summer when the peach trees are ripe"
I'll follow my dreams where ever they take me
Now I'm headed home, I saw the light

I saw it in you
I saw it in you

I saw it all in you
The sun, the wind
The trees that bend
I saw it in you
I saw it in you
I saw it in you

Sometimes, I listen to the fool inside me
Sometimes, I follow the song in my heart
Sometimes, I swear there's an angel beside me
Guiding my footsteps on through the dark

I saw it in you
I saw it in you
