

# It's A Little Like Love

Joe Ely

Well I woke up wonderin'  
'Bout what you said last night  
When you wanted me to say in my own kind a way  
What it was that our love was like

It's a little like a Daytime Drama  
When the plot gets thick  
You just never realized thru the turns and ties  
That you was in the thick of it

It's a little like a Carousel  
That's breakin' apart  
And all the wild wild horses runnin ever which way  
Runnin all over your heart

It's a Little like everything  
This crazy world's made of  
It's a little like a feelin' when your heart is reelin'  
It's A Little Like Love

I don't know if I'm strong enough  
To even hold on tight  
I don't know if I can keep my poor eyes open  
Baby till I see the light

It's a little like a Six O'Clock News  
In the middle of your head  
Both sides are a little hazy about which one's crazy  
And what is better to be left unsaid

It's a little like a stock car race  
You never stay in line  
You just dodge flyin' steel and the rubber off the wheels  
And try to make it to the finish line

It's a Little like everything  
This crazy world's made of  
It's a little like a feelin' when your heart is reelin'  
It's A Little Like Love

I didn't buy no four week Course  
I had to learn it on my own  
Who ever wrote the book must've never took a look  
At the seeds that they could have sown

It's a little like a thunderstorm  
Lightnin' hail and rain  
But when the clouds blow by there's a clear blue sky  
To wash away all your pain

It's a little like a mountain climb  
It's a long hard rise  
If you make it up the hill then you know you will  
See the sun on the other side

It's a Little like everything  
This crazy world's made of

It's a little like a feelin' when your heart is reelin'  
It's A Little Like Love
