You might have seen me hangin' around I never miss one night, I could be on the town I used to be another one like you Always running home to that special one or two And when I think of all the years of finding out What I already knew Now I spread myself around And you can have three minutes too 'Cause I'm a hit single, I'm a hit single I'm a hit single, I'm a hit single Lookin' out for number one I got a line or two that never fail And every time you look around I'll be there on your tail I'm nothing special but I don't give in Before you know it I'll be there right underneath your skin And if you think that being serious and smart Gets you where you should be You must be not only joking But way too heavy for me 'Cause I'm a hit single, I'm a hit single I'm a hit single, I'm a hit single Goin' straight to number one And when I die and go to pure pop heaven The angels will gather around And ask me for my whole life story And ask for that fabulous sound But I know they're gonna stop me As I start going through every line And say please not the whole damn album Nobody has that much time Please, just the hit single, just the hit single Just the hit single, just the hit single You gotta love that number one
