

## Not Here, Not Now

Joe Jackson

These words of love so hard for me to find  
How can I change my mind if you can only lie?  
These shattered dreams I try to build again  
But looks could kill again and I'm too young to die

Smiling faces all around us  
You don't wanna make a scene  
Not here, not now  
And I don't wanna cry

We drink the wine like we were really friends  
But can our sadness end and work turn into play?  
We dress so fine and step out on the town  
And friends may gather round but soon will turn away

Smiling faces all around us  
You don't wanna make a scene  
Not here, not now  
And I don't wanna cry

Smiling faces all around us  
You don't wanna make a scene  
Not here, not now  
And I don't wanna cry
