

Feel The Fire

Joe Lynn Turner

She's so exciting, got the flame igniting deep
inside my heart
A flash of lightning, I could Feel it striking from
the very start
Turns on the heat, but I keep coming back for
more
Burning so deep, she gives me love I never felt
before...
I never felt before, I feel the fire
Burning in my heart, filled with desire
Higher and higher
I'm walking a wire, gonna fall in the fire
Caught in the fever, I couldn't leave her,
I went round and round
My heart was aching, she started making me
feel upside down
She took me by the hand and we ran through
the looking glass
I couldn't understand, but now I see that It was
love at last...
It was love at last
I feel the Fire
Burning in my heart, Filled with desire
Higher and higher
I'm walking a wire, gonna fall in the fire with you...
Fall in the fire with you
