Get Tough

Joe Lynn Turner

I remember I heard them say
Only the strong survive
Living in the world today, it's hard enough to
stay olive
Somewhere 'round the corner, deep inside the
dead of night
Somebody's watching. somebody's waiting
Somebody's getting ready to fight
Get Tough
They're gonna get rough with you
Get Tough
That's what you gotta do
All the victims out on the street
Are dying for a second chance
Steal the glory and rob defeat, the only crime is
All's Fair in love and war, or so the story's told
Just stand your ground, raise up your hand
and let the power take control
Get Tough
They're gonna get rough with you
Get Tough
That's what you gotta do
Get Tough
Show 'em what you can do
Get Tough
Don't mess around with you
Ooh ooh you better get fought
Ooh ooh you better get tough
