

Love Is On Our Side

Joe Lynn Turner

Time is now to heal the pain
Battles fought and nothing's gained
why is it so hard leaving the past behind
It's just matter of time

Saw tomorrow in yesterday
Lessons learned and throw away
In the city of darkness I know that hop still shines
Let it shine & oh yeah

Love is in our side
Yesterday's gone there's always tomorrow
Keep your faith alive
Oh... and let your heart be your guide
Cause love is on our side

Wounded pride... blinded by hate
The children cry and all we do is wait
We can't go on letting life slip away
A little each day...yeah!

When will we learn no one hears the call
It's hell on earth and heaven's gonna fall
Somebody tell me where do we belong
Oh we gotta be strong

There's a dream inside of me tonight
There's a love that we can share
If the world would only see the light
It's my silent song it's my answered prayer
