

Young Hearts

Joe Lynn Turner

They say our love will never last
We're much too young, falling much too fast
Well, just how empty can their hearts be
Did they lose love's memory?
Go on dreaming... keep believing
'Cause what we're feeling is everything we need
[All the) young hearts breaking free
With every beat inside you and me
(All the) young hearts in the night
Keep the flame of love burning bright
Here we are, hand in hand
Restless souls in the promised land
And everything we feel inside is right here in
our eyes
Go on dreaming... keep believing
'Cause what we're feeling is everything we
need
(All the) young hearts breaking free
With every beat inside you and me
(All the) young hearts in the night Keep the flame of love burn
ing bright Repeat... ad lib to fade
